

# SAVANT CUSTOM REMOTE

A personalized experience for every user in your home

**SAVANT**

savant.com

Swipe or tap to access Settings

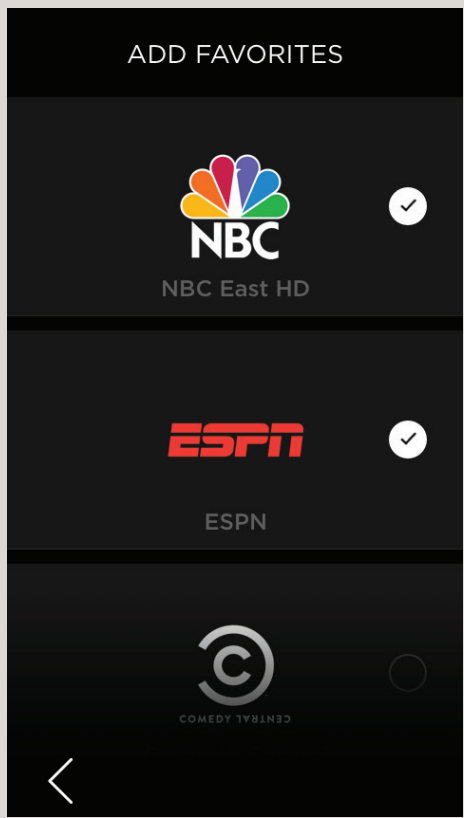

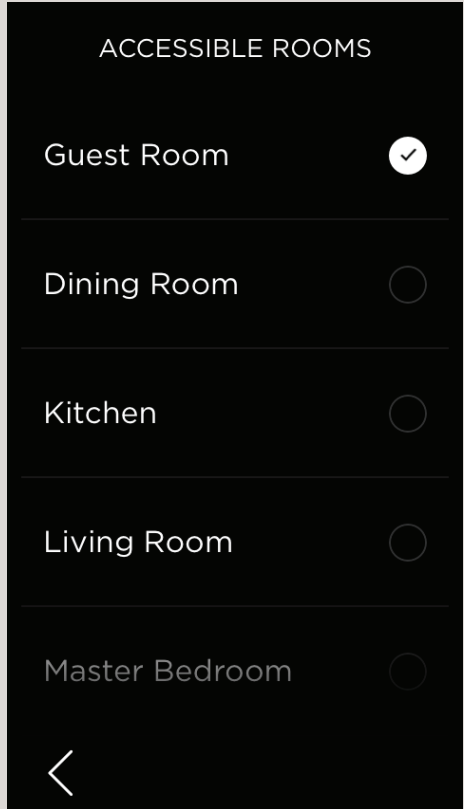

Tap and hold to reorder Services

Swipe or tap to access Scenes

Add Room Images for intuitive navigation

Voice Button supports Siri on IP controlled Apple TV

**CHOOSE YOUR ROOMS**

Select the rooms each user interface can control. Keep the experience simple for guests, set up a remote for the kids, or enable all rooms for full control of your home right from the palm of your hand.

**MANAGE YOUR HOME SCREEN**

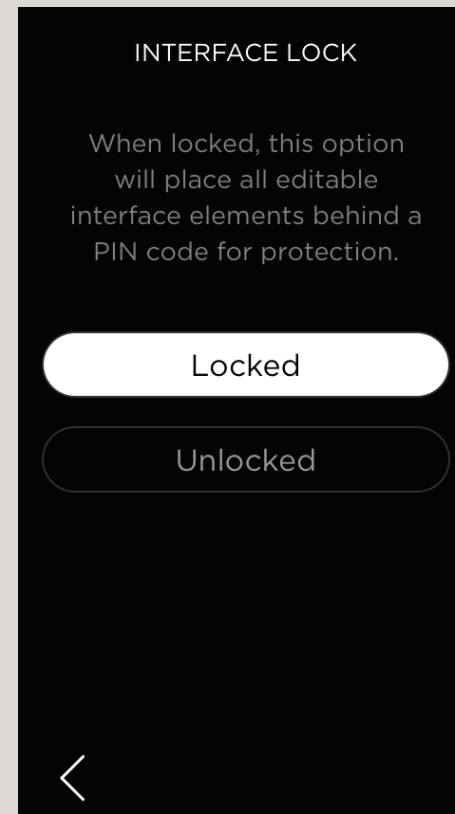

Show, hide, or reorder services, add favorite channels or Scenes to your home screen, and change them whenever you like to best suit your usage.

Save multiple different interfaces for each user, for a layout to fit any occasion

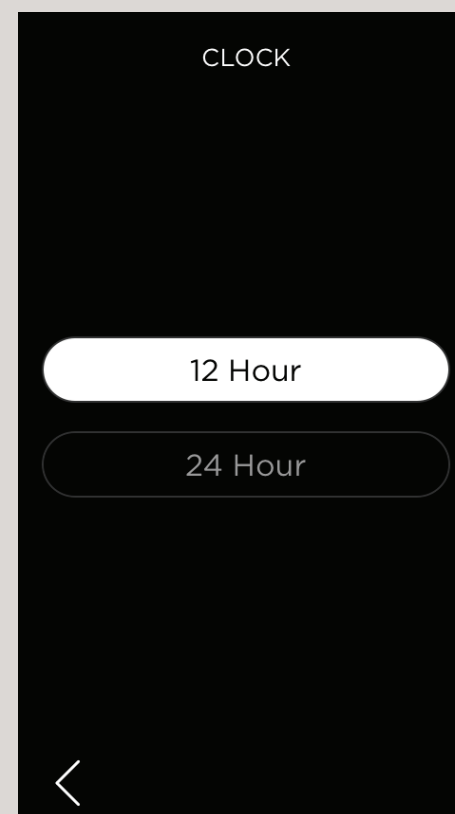

Each user can sign into the remote to access their personal Favorites and Scenes

Users can choose to adjust Screen Brightness, Sleep, Wake Sensitivity, and Configure the power button behavior

### LOCK IT DOWN

Settled on a layout that works perfectly for you and don't want it to change? Add a PIN to lock remote settings.

### CLOCK

A clock is now displayed at the top of the home screen, available in both 12 hour and 24 hour modes.

Keep your favorite channels front and center

Move your favorite scenes to the home page

Hide the Scenes list and settings for a simple, clean look with no swiping required

#### SINGLE SCREEN

This option hides the Scenes menu and moves the Settings menu to the bottom of the main screen.

On

Off

#### SUPER SIMPLE

Turn on Single Screen mode to eliminate the need to swipe back and forth. Access all Scenes, services, and favorites right from the Home page.

#### TEXT LABELS

When text labels are enabled, there will be an additional text label below the Service icons.

Show

Hide

#### Only Icons

Love our icon design? Hate reading? Hide all text labels for a super clean, minimalist experience.
